## **HS2 Works**

There are going to be major disruptions to access to the church as from 3rd July due to HS2 works in relaying pipes along Eastcote Lane.

The road from Eastcote Lane North will be blocked off to cars (pedestrians will

have access). The dividing fence between the church and our neighbours will be removed. The only access by car to the church will be to enter Eastcote Lane from Mandeville Road (by the BP station) and cross the bridge (we have been assured that the traffic cameras will be switched off from 3rd July, and we will not be fined for driving through this way), drive into the car park of the neighbouring houses and then through the gap left by the the removal of the church fence.

This will be in force until 14th August, after which the Eastcote Lane entrance from Eastcote Lane North will be opened but only for access to our church and the neighbours who will then have to go through the church car park to access their property.
